**DAR Sport & Mini Course** is a 1km triangle. Should take between 9-12 minutes. *Sport & Mini use double sit-on top kayaks ONLY.* Course is 1km, in an anti-clockwise direction around 2 large yellowbuoys. Buoyancy aids will be provided with different sizes available. **MUST BE SECURE** before DAR marshals will allow you proceed to kayak. Paddles provided next to the kayaks. Double up with the person next to you. It is best for the stronger or the bigger person to be in the back. The person in the front should paddle forward and the person in the back can steer or correct kayak by a back paddle stroke. Competitors can not hand pick who they go with, they must go with the person next to them. No Time out allowed.

As in previous years competitors are not allowed bring their own single or double kayaks, they must use the doubles provided by DAR.

We don't expect many to fall in as these are stable boats, but we will have 2 safety boats on the water. If winds are too strong DAR will cancel the kayak section. If a single person is left at the back of wave a marshal will kayak with you.

## **DAR Full Course**

2km Triangle anti-clockwise direction around all large red and yellow buoys. Buoyancy aids will be provided, with different sizes available. **MUST BE SECURE** before DAR marshals will allow you proceed to kayak. Paddles provided next to kayaks.

45 Single sea kayaks 15/16 foot will be used, but there is an option to use double sit on top kayaks if wind is not great on the day. If it is very windy then DAR will cancel the kayak section. Competitors can bring their own kayak only for DAR full, but we only expect only 5/6 people to do this (drop off to pitch and putt course by 08.00 if bringing your own). The sea kayaks provided are good and fast (if you paddle them right). If there is a wait for the kayaks, a time out box will be used (if windy and DAR is using doubles then you will be timed out until the next competitor arrives to kayak with you).

## **General rules all courses**
